

Welcome to The Offshoot Foundation Film Making Workshop.

This workshop is based at Stowmarket Community Centre.

This is the entrance to the centre which you can walk through and then walk all the way down to the end.

Alternatively, you can park at the bottom of the car park and walk in the back entrance.

Here are the toilets by the back entrance

This is Paul. Paul runs the Offshoot Foundation.

This is Anna. Anna supports on the filmmaking workshops.

We run the workshops at the Centre on Monday and Wednesday Afternoons from 5:30 PM to 7:30 PM

Our room is called the Muntun and Fison Room.

We bring filmmaking equipment every day with us for you to use. This can range from film cameras, still cameras to take photographs, and Apple Macs to edit on.

Filmmaking is fun and we want to help you learn how to make your own films.

We look forward to meeting you soon.

Bye
